I/We wish to apply for a water connection and have read and understand the WEVD Community Water System Ordinance and regulations that are in effect for new connections to the water system including. I/We understand that the failure to comply with the regulations will be sufficient cause to withhold making the connection or discontinue the water supply.

I/We also understand that this permit, once granted, is valid for 1-year and that I/we must apply and for a 6-month extension if the necessary work cannot be completed in that time and that no significant work is to be done during the cold weather construction ban (Nov. 15 - April 15) without prior approval from the Water Department Superintendent. I/We understand that we are responsible for notifying the WEVD Water Department immediately upon deviation from plot plan approved/used for application and that we must provide an as built and pay the connection assessment before water service will be turned on.
